

Trance Artist with trance and techno umami, deliver best uplifting techno flavour.

DJ · Producer · Remixer · 128–145 BPM

Ben van Gosh plays trance with a techno bite. Big uplifting melodies over a rhythm section that never sits still, 128 to 145, built for peak time. Behind the decks since 1997, releasing since 2020 on more than forty labels, among them Black Hole Recordings, In Trance We Trust, Nocturnal Knights and Future Sequence. 2026 is a reset: new logo, new press shots, and the monthly show renamed after more than fifty episodes — Kitchen Trance Club is now Trance Bangers.
